Well how many did you identify? _____

These are familiar places in our community. You might even be in some of them every week.... Well.. Hopefully not number 2!! Anyway while it's great that we can identify these buildings, do you know what function they have? Complete the table below for the following pictures we named above

Picture	Function (what happens here?)
1	
3

14	

Bonus Point: Name this place and say what happens here.

Organisations in Our Local Community

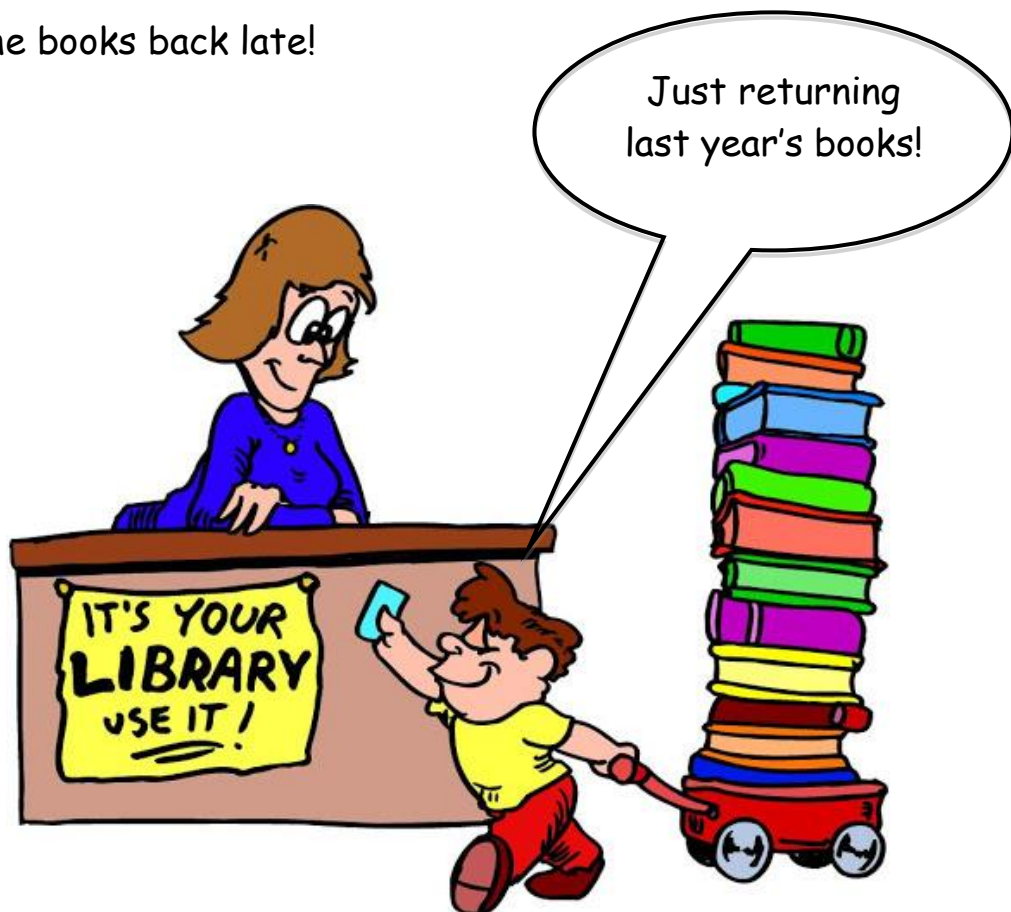

There are many organizations working in our community, serving local needs and supplying a service to local people. Some of these are government run and funded while others rely solely on the support of local volunteers and donations. **Can you identify the organisations below? Say in one word the work/service each one does? Look them up if you're not sure**

What's Free in the local Community?

There is an old saying that the best things in life are free. This is not really talking about **not** having to hand over money for something but rather such things like getting a hug, enjoying nature, the flowers, the sunshine and friends etc. However, it is nice when we **do** get something free that we would normally have to pay for.

Take for example, **the Public Library**. There was, in the past, a small fee to be paid to join each year and also a fine if you brought the books back late. That is all gone now. You can join the Library for free and there is no fine if you bring the books back late!

And the Library isn't the only service that's free. There are public parks, museums, historical sites, education courses and lots more that cost nothing to use or enrol on. Remember though, it is our taxes that support these

free services. There are however, lots of services and activities we have to pay for. Look at the following pictures. Say whether the service is free or has to be paid for in the local community.
